

# Singapore Workshop on Antennas

03 – 04 November 2025, Singapore

[www.swasg.org](http://www.swasg.org)

## CALL FOR EXHIBITION & SPONSORSHIP

**Dear Valued Exhibitors and Sponsors,**

The **2025 Singapore Workshop on Antennas (SWA 2025)** will be held at the *PARKROYAL on Beach Road Singapore* from November 3 to 4, 2025. This specialized event is dedicated to advancements in antenna technology, featuring insightful keynote presentations and selected technical talks by young professionals (YPs) and students. Over the course of two days, the workshop aims to address key challenges within the antenna community, foster the exchange of research insights and findings, and promote collaboration among participants.

SWA 2025 will extend invitations to esteemed speakers from around the world, providing a premier platform for knowledge exchange, catering to both academia and industry. This workshop will comprehensively cover a broad spectrum of topics, including antenna design, modeling, simulation, measurement, management, and education. By embracing these diverse topics, SWA 2025 aims to offer a high-quality forum tailored to the needs and interests of participants from various backgrounds.

The workshop also presents an excellent opportunity for your company to showcase state-of-the-art hardware, software, technologies, products, services, and solutions on a global stage. As the Exhibition & Sponsorship Chair of this workshop, I warmly invite you to participate in the exhibition and generously contribute as a sponsor. This event ensures that our sponsors receive unparalleled exposure to the most influential engineering audiences in wireless communication technologies, providing you with an ideal platform to publicize your company and elevate your brand recognition.

The patronage package (SGD \$3,000 exclusive GST) comprises on-site table demonstration, complimentary registration, company logo inclusion, and more.

Please visit the workshop website at <https://www.swasg.org> or contact the Exhibition & Sponsorship Chair, Dr. Richard Xian-Ke Gao, at [gaoxk@ieee.org](mailto:gaoxk@ieee.org) for more information.

We look forward to your participation in the 2025 Singapore Workshop on Antennas and the opportunity to engage with you at this premier event!

**Richard Xian-Ke Gao**

Exhibition & Sponsorship Chair, SWA 2025
